

„Danger in Dream“ Soundset for Waldorf Pulse (Plus)

This soundset is meant for the Waldorf Pulse (Plus) with an installed Russian Filter Board. I used these sounds heavily on our album [Iconic by Danger in Dream](#). With Selector V3.0 each program contains already the correct filter mode setting. Without Selector you have to select the respective filter mode manually. Arpeggios are MIDI synced. The Pulse needs ID 0 to receive data.

If you like this soundset please consider a donation to a welfare organisation of your choice!

These sounds may be shared! © 2016 – 2022 Alexander Guelfenburg / www.virtual-music.at

No	Name	Filter	Description
1	FM Arpeggiator	BPF	MIDI synced Panorama, Mod Wheel → Filter FM
2	Vince Clarke Arp.	LPF	Percussive Arpeggiator – Vince Clark Style
